AIE CAMPUS RENEWAL

The Academy of Interactive Entertainment (AIE), the current tenant on Block 1, Section 13 Watson (Old Watson High School site), has engaged Tania Parkes Consulting to help us undertake community consultation in relation to the proposed revitalisation of AIE's Canberra Campus as a higher education precinct including student accommodation.

AIE is now preparing a future intentions plan (also known as the Campus Master Plan) for the site. AIE's Campus Master Plan will consider and provide guidance for staged development across the whole site in context of the surrounding suburban setting. This plan will form the guiding document to which AIE submits future Development Applications.

The new campus will feature AIE's administrative headquarters, specialised games and film teaching facilities, opportunities for industry partnerships and work integrated learning, student production halls and student accommodation.

AIE will be hosting two public open sessions. Each session will be displaying AIE's draft Campus Master Plan for review and feedback.

Online meeting - Tuesday 9th of February 2021, 11 am to 1 pm.

Join from the meeting link on the AIE community website.

Drop-in sessions - Thursday 25th of February 2021, between 3pm and 5pm at Canberra Technology Park, Watson. Due to social distancing requirements, please pre-book a designated time on the AIE community website.

To register or learn more visit the AIE community website at:
<https://community.aie.edu.au/>

Alternatively, provide feedback to us via community@aie.edu.au before the 19th of March 2021.
